

UI Designer - Location: Milan (Italy)

We are looking for a UI Designer with at least 3 years of experience.

We are looking for a talented person, with a strong post-digital attitude, motivated and interested in the world of digital at 360°, with experience in the areas of UI and web design. That includes designing responsive desktop and mobile website and application UI mockups and providing expert design recommendations to our team.

Responsibility

The candidate will immediately join a structured team, starting to work on international clients.

Main areas of responsibility will be:

- Creative campaigns
- Brand identity
- Sites and Apps

Professional skills required

- Excellent knowledge of English (C1, written and spoken)
- Adequate technical education (e.g. college, university)
- 3+ years of professional experience in designing for mobile apps and responsive web site UIs (even for e-commerce), with an emphasis on visual design
- Good experience design graphic for website, social media and email campaigns
- Proficient user of Adobe Photoshop, Indesign , Sketch App and InVision
- An understanding of user-centred design principles and best practice
- Solid understanding of web best practices, design usability, user interface, user accessibility, and user experience
- Experience with A/B testing (QA)

Attitude and Soft Skills

- Involvement in new trends related to design and visual communication
- Passion for creating, and a strong design sensibility for page layout, color palette, typography and aesthetics
- Proven attention-to-detail, following detailed brand guidelines
- Structured working approach and general-purpose problem-solving skills
- Ability to work both in groups and independently, under pressure, on disparate projects

La ricerca è rivolta ad entrambi i sessi ex L. 903/77.

- Speed of execution and ability to work even with short delivery times

Nice to have

- Proficient in HTML, CSS, Javascript/jQuery, and the capabilities of web browsers

What we offer

- Compensation according to the profile
- Apple station
- Welcome Kit
- Conferences and Events (offered by Arkage)
- Training, online courses, books and documentation (offered by Arkage)
- Research and Development on innovative topics (VR, Wearable, IoT, iBeacon, AI and much more)
- Heterogeneous project teams: Developers, Designers, Creatives and Strategists
- Smart working even before Covid

La ricerca è rivolta ad entrambi i sessi ex L. 903/77.
